

# THE PALMS AT OCEAN REEF ISLANDS

Two Beds

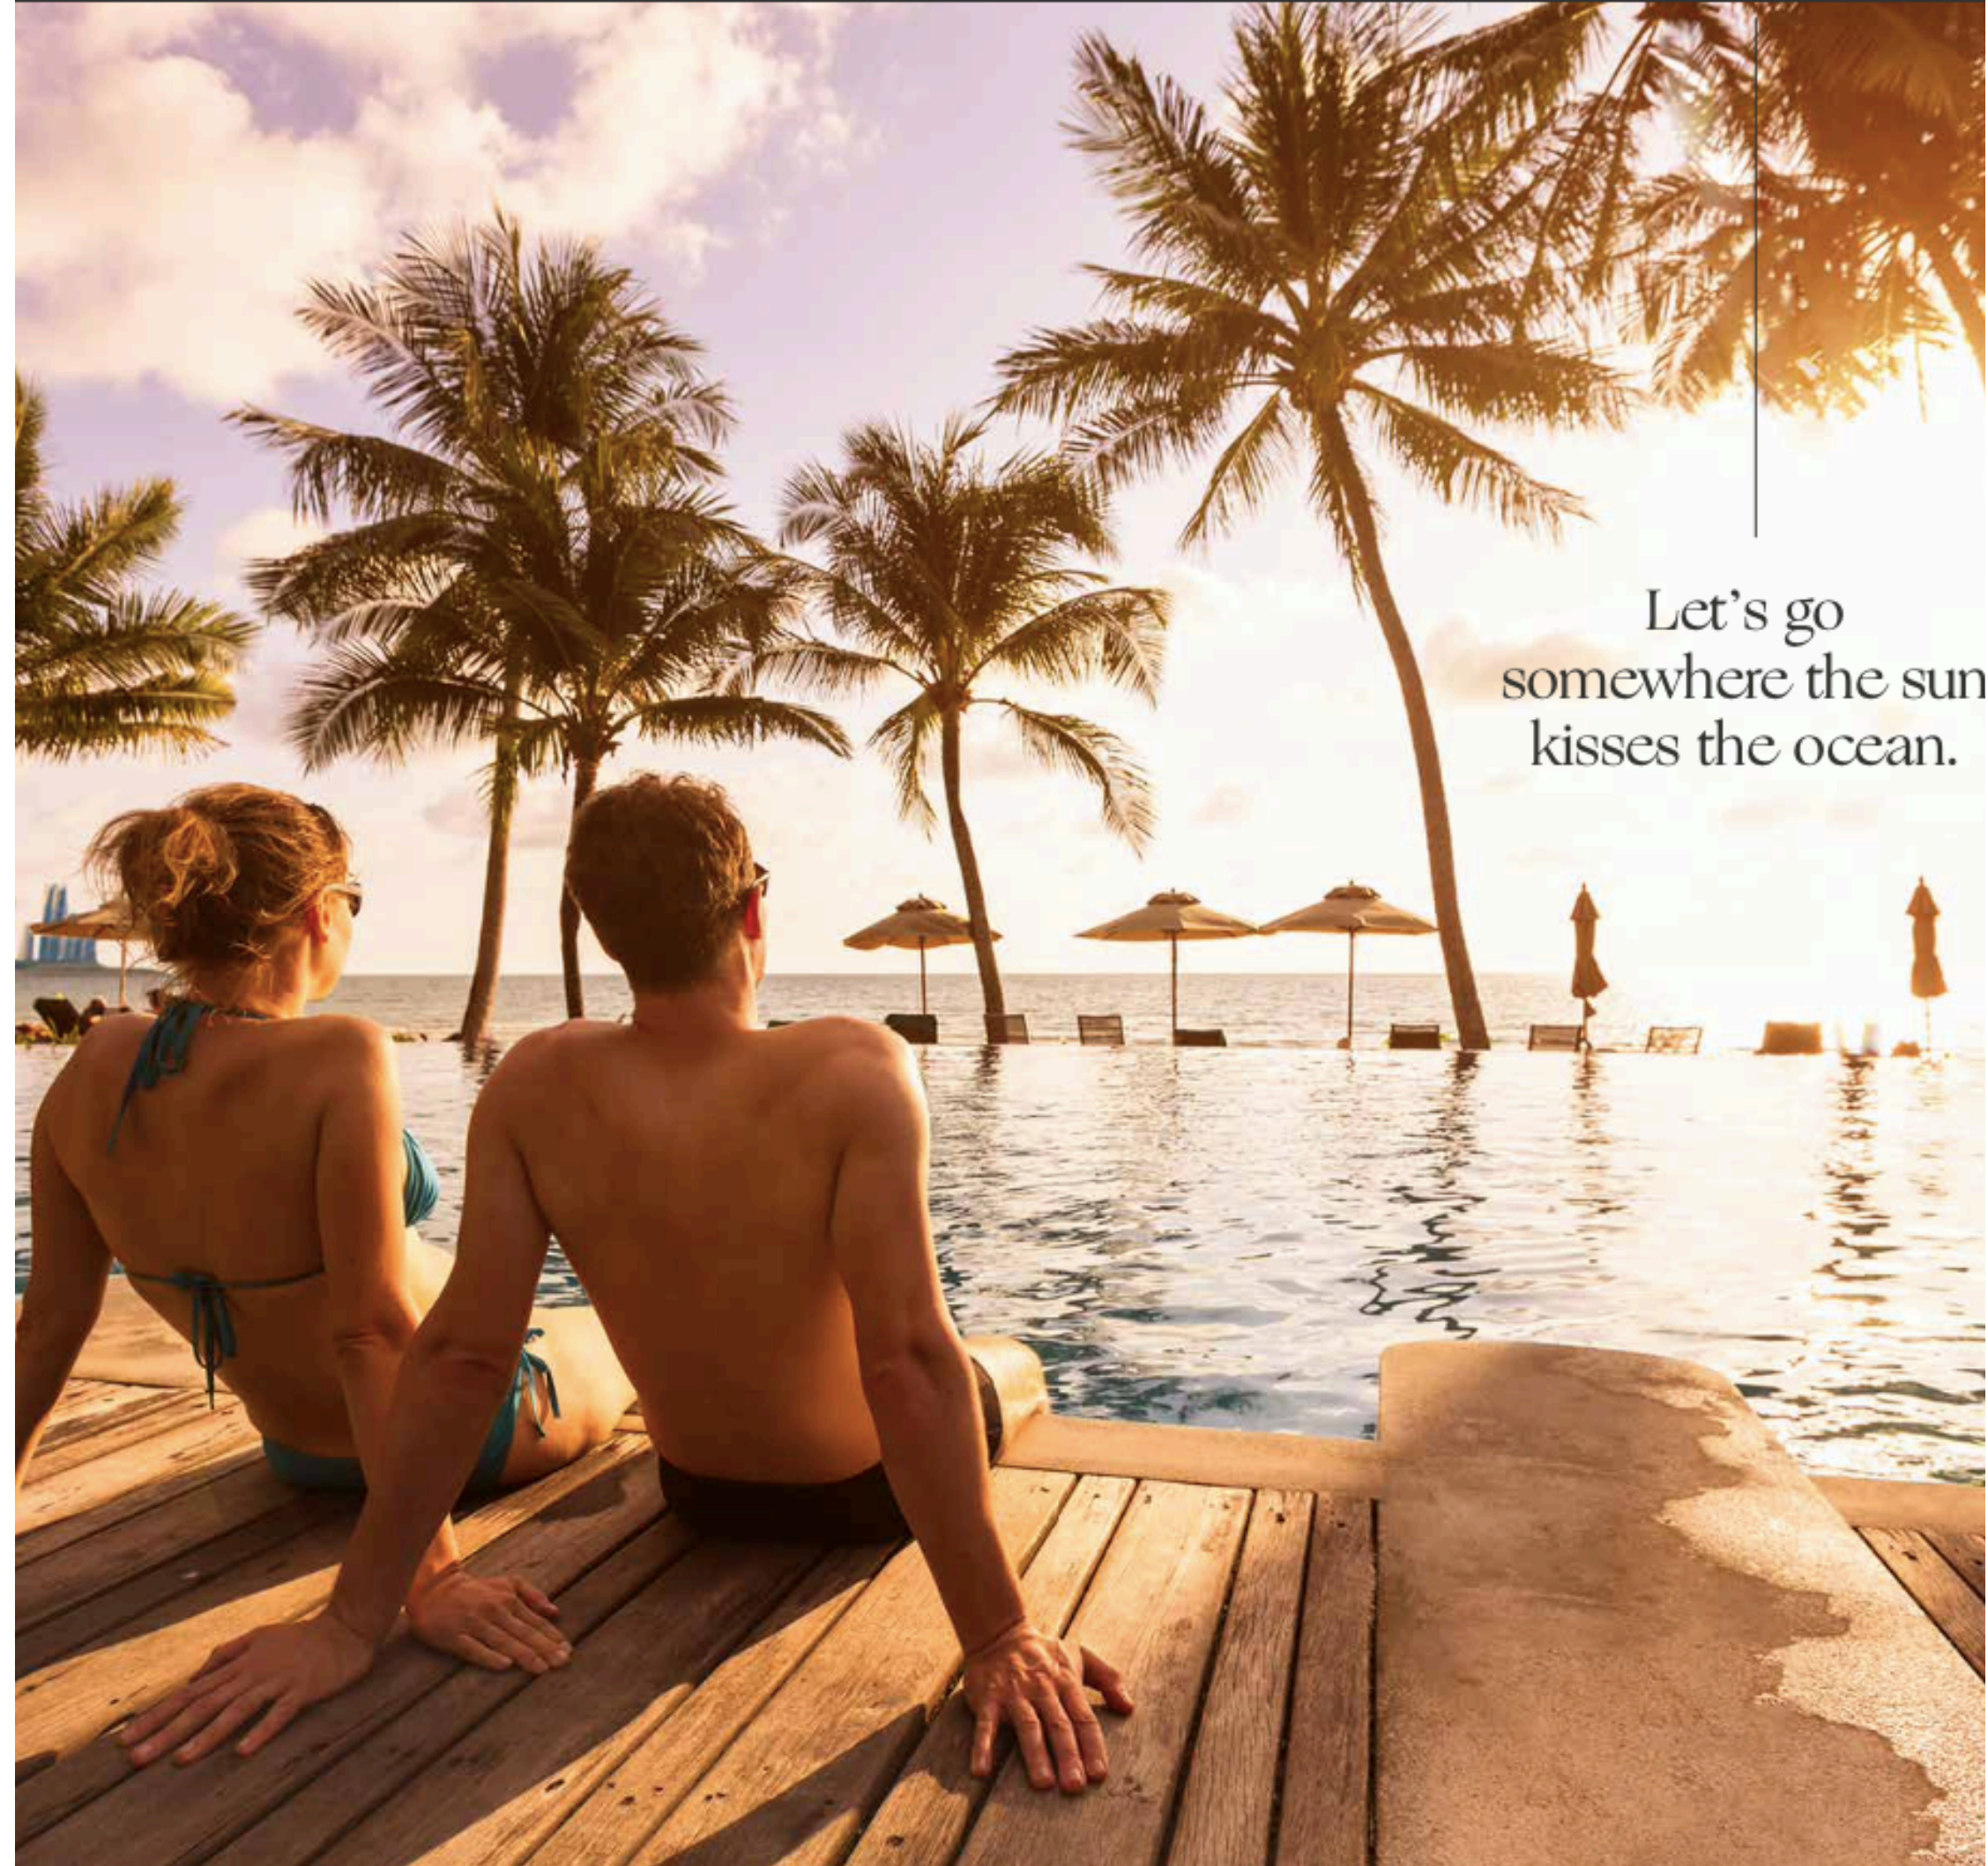

141 mt2

Building with only 4 families

One unit per floor

Two parkings

**\$815,000**

Let's go  
somewhere the sun  
kisses the ocean.

“Palm trees, ocean breeze, salty air, sun kissed hair.”

# THE PALMS BEACH RESORT

The Palms beach resort is the first “island resort” in Panama City, mixing avant-garde architecture and design with landscaping and amenities that transport you to a remote island, enjoying environments and experiences typical of the best tropical destination.

Living at The Palms beach resort strikes a perfect balance between having the comforts and experiences of a progressive architectural design while having experiences that make you feel peace and quiet in the center of the city.

We create open spaces carefully designed so that the balance between work life and rest is rewarding: a day at The Palms beach resort is a day between the beach, decks, apartments designed for today’s world, coworking spaces, yoga decks, gazebos, a pier where you can fish and see dolphins, large swimming pools with spaces such as fire pits, bar, chef’s kitchen, among others.

The Palms beach resort is shaped through buildings with few apartments (1 or 2 per floor) with the aim of having a lot of ventilation and natural lighting and reinforcing the “island resort” feel. The buildings are surrounded by large gardens, paths carefully designed to make you feel peace and tranquility, large terraces, grand social spaces, sports and activities in open spaces, a true connection with nature, the beach and the sea.

The Architecture that we propose is clean and warm, with horizontal lines by arranging the volumes of the buildings with rhythms of facades of every 2 floors and thus creating a sense of stability and balance in the project.

THE PALMS  
BEACH RESORT  
OCEAN REEF ISLANDS

“At the beach life is different, time doesn't move hour to hour but mood to moment. Live by the currents, plan by the tides and follow the sun.”

– Sandy Gingras
