BUILD OR FARM

Organic Finca, Valley Views

A terraced 1,784 m² mountain finca, nine years chemical-free, growing a mountain of food — with a cottage, a confirmed well, and room to build home above the valley.

neat terraced rows, ha
inputs.

THE HARVEST LEDGER

From the garden

Tomatoes • broccoli • asparagus • berries • peppers • zucchini •
eggplant • beets • cabbage • lettuce • onion • peas • sweet
potato • chicken eggs • quail eggs • and more

From the trees

Several varieties of lemons •
varieties of banana • and

ORGANIC HIDDEN GEM • CAJÓN, COSTA RICA

The Home & The View

THE COTTAGE

60 m² (≈646 sq ft) • 3 bed, 1 bath • secure gated portón • covered carport for 2 cars • view deck behind the gate

WATER & ACCESS

Well drilled to 21 m (69 ft) •
≈\$3,000,000 invested in
irrigation • road access to
streets

Terraced gardens climb the slope on every side — reused tires and stone hold the beds in place, making the most of the land.

> ROOM TO BUILD

The real upside: this terraced, sloped lot has space to build a new residence with panoramic views, taking full advantage of the gardens already established below. Keep the existing house, or start fresh — the land is ready either way.
